

Valley High School's Global Business Academy excel at SkillsUSA National Competition

Karen G. (Class of 2025) earned 9th place at the [SkillsUSA](#) National Leadership & Skills Conference held this summer in Atlanta, Georgia.

Karen competed in the Job Skill Demonstration contest, where she showcased a powerful combination of public speaking and presentation

skills gained through the Global Business Academy, along with technical expertise from her Dental pathway courses. Competing against the top student from every state, Karen's achievement places her among the top 10 students in the nation in her category.

Karen's success reflects the commitment of SAUSD, CTE, Valley High School students, educators, business partners and the community to preparing future leaders. The Global Business Academy looks forward to building on this momentum in the year ahead.

The trip to Atlanta also provided valuable educational opportunities for our Global Business Academy participants. They explored Atlanta's cultural landmarks, including the Zoo, Georgia Aquarium, and Botanical Garden, enriching their learning experience.
